## Connecting High Power PoE Cameras over Fiber cables

The Vi50000A is used with the Vi50001 for long distance high bandwidth applications. The Vi50000A provides up to 60W PoE power to meet the highest PTZ dome power requirements.

## Connecting Network Switches at long Distances

With 1000Mbps (1G) bandwidth, the Vi50000A can be used with the Vi50001 as a perfect solution for connecting network switches over long distances.
